

Mohammad Aminur Rahman Maruf

Product Designer & UX Specialist

 uxdmaruf@gmail.com  [Linkedin](#)  [Portfolio](#)

Summary

Founding product designer with a passion for building early-stage digital products that create meaningful user experiences and drive growth. I merge human-centered design with spiritual and strategic insight to craft intuitive, empowering interfaces from research to prototyping to launch.

Education

Human-Centered Design, HCI — *IxDF*

Oct 2024 – Oct 2026 (Ongoing)

Diploma in Human Centered Design — *Userhub*

Jan 2024 – Jul 2024

Google UX Design Certificate — *Coursera, Google*

Apr 2021 – Aug 2021

Bangladesh University — *BA, English Literature*

Sep 2019 – Sep 2023

Experience

hello:here — *User Experience Manager*

Jun 2023 – Jun 2025

Led UX efforts from the ground up to build hello:data, the largest AI-powered property database. Earlier, I designed Mallorca Magic, one of the largest real estate social listing platforms in Europe. Other contributions include Life of Spain, Hello:here Biolink, and more. Beyond interface design, I have played a key role in pitch deck creation, fundraising, project management, and developing marketing materials aligned with business goals.

Wizard Software & Technology BD Ltd. — *UX Designer*

Nov 2022 – Apr 2023

Collaborated with an exceptional team of developers and designers to create digital products across EdTech, FinTech, and InsurTech industries. Contributed to research, wireframing, and UI design, learning to balance user needs with business goals in a fast-paced environment.

Upwork — *Product Designer*

Feb 2022 – Present

For over 3 years, I have worked on Upwork as a product designer, contributing to impactful digital products used by users around the world.

Accomplishment

Led UX design for one of Europe's largest real estate data platforms, enabling seamless property insights for thousands of agents.

Crafted the world's first AI-powered property scraper, automating listings aggregation with high accuracy.

Developed compelling pitch decks that played a key role in securing multi-million-dollar investments.
